## KEY FEATURES

## WHERE

Residential, commercial and retail outlets, especially areas where its very dark at night and a clear colour picture is needed. Suitable for indoors and outdoor use

## WHY

Whilst the camera can be viewed in colour 24/7, the camera can be set up on infra-red (IR) and turns to colour when motion is detected. It's great for deterrent purposes as the camera has flashing lights, a siren, and a built-in microphone and speaker, which allow users to listen or speak remotely via the app or web browser.
